Keccak 256 Hash

Notation : K256

Description: A cryptographic hashing function which outputs a unique singleton 256-bit (64-byte) string of HEX UTF-8 characters for an arbitrary input.

 $\textbf{Example} \quad : \text{ Here is the SHA-256 hash for the string 's mart cookie'}. \quad 15 \text{ bbecab56663c3f6327e1da775badf40c2a19abaf306bff97d7641bb6} \quad : \text{ cookie'}. \quad 15 \text{ bbecab566663c3f6326bff} \quad : \text{ cookie'}. \quad 15 \text{ bbecab66663c3f6327e1da775badf40c2a19abaf306bff97d7641bb6} \quad : \text{ cookie'}. \quad 15 \text{ bb$
